

Groundwater Investigations and Cleanup

Vapor Sampling

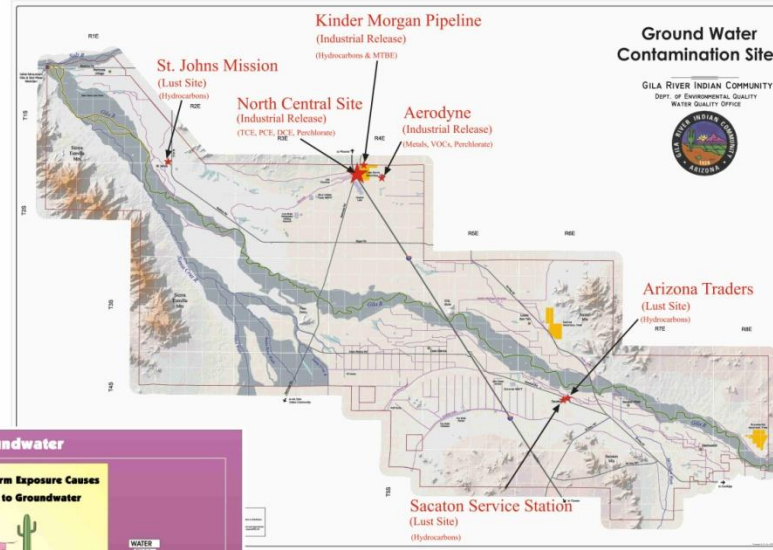

Monitor Well Drilling

Pipeline Leak Site

Benzene, Toluene, Ethylbenzene, Xylene (BTEX)
Methyl-Tertiary-Butyl-Ether (MTBE)

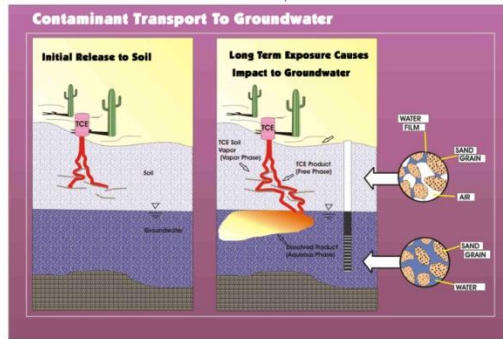

Cleanup Activities

- Excavation of Soils
- Free Product Removal (Five years)
- Groundwater Extraction and Treatment System (Six years)
- 47 groundwater wells installed
- Natural Attenuation (on-going)

Environmental Results

- Removed 9 Feet of Free Product on Water Table (extended 500 ft)
- Currently 98% of Site is Cleaned Up

How Contaminants Move Through the Soils and Groundwater

Collecting Samples with Diffusion Bags

Collecting Samples with RPPS Samplers

Collecting Water Levels
