

## ASBESTOS NOTIFICATION INSTRUCTIONS

Asbestos notifications to EPA Region 9 are required for all demolition projects (regardless of whether asbestos is present) and any renovation project that disturbs regulated asbestos-containing materials (RACM) greater than the threshold amounts. "Demolition" is defined in 40 CFR 61 Subpart M as "the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of any facility."

Electronic 10-day Asbestos Notifications to EPA Region 9 are not permitted – hard copy is required. The 10-day Notification must be sent through US Mail to the EPA Asbestos contact below:

Kingsley Adeduro Environmental Engineer Enforcement Division Mail Code: ENF: 2-1 US Environmental Protection Agency Region 9 75 Hawthorne Street San Francisco, CA 94105

(415) 947-4182 (415) 947-3579 Fax <u>adeduro.kingsley@epa.gov</u>

## A copy of the Notification must also be emailed to <u>air@gric.nsn.us</u>.

The applicant must demonstrate that the facility has been inspected and the Asbestos-Containing Material (ACM) has been removed before the structure can be demolished. If emergency demolition is needed, the structure can only be demolished with permission from the EPA.
